ANNUAL COMPLIANCE REVIEW, 2014

Docket No. ACR2014

**NOTICE OF THE UNITED STATES POSTAL SERVICE
OF REVISIONS TO USPS-FY14-30 -- ERRATA**
(February 20, 2015)

The United States Postal Service hereby provides notice of revisions to the Market Dominant NSA Materials provided in USPS-FY14-30, submitted with the ACR on December 29, 2014. These revisions address two separate issues within one Excel file (FY14.30_ACR.NSA.xls) of the two Excel files included with USPS-FY14-30.

First, tab “4_CRA” is revised to account for rebate and discount amounts omitted from the original figures. These revisions change the aggregate product revenue amounts used as output to the CRA, but have no effect on the evaluation of specific NSAs shown in the other tabs. Second, tab “5_PRC Methodology” is revised to correct the error acknowledged in the response to ChIR No. 8, Question 1 (also filed today) in the PHI NSA net value calculation under the Panzar methodology. Further details on the revisions are provided at the end of the revised Preface, and the affected cells in both tabs are highlighted. No other tabs in FY14.30_ACR.NSA.xls are affected, and the other Excel file (FY 14 NSA Unit Cost Detail Data Calculations.xls) is likewise not affected. Nonetheless, for the sake of completeness, both Excel files (the one revised and

the one not revised) are included on the revised disk, so that disk will constitute a full replacement of the original disk.

Respectfully submitted,

UNITED STATES POSTAL SERVICE

By its attorney:

Eric P. Koetting
